

SUSTAINABLE GIVING AT JACARANDA BEACH RESORT

Supporting our community the right way

At Jacaranda Beach Resort, we are proud to be part of a vibrant local community. Many of our guests ask how they can help — and we truly appreciate your generosity. To ensure your kindness creates **lasting, positive change**, we encourage **sustainable giving**.

Why we ask guests not to give money or sweets directly

While well-intentioned, giving money, sweets, or gifts directly to children or individuals can unintentionally:

- Encourage children to leave school to seek handouts
- Create dependency rather than long-term support
- Lead to health issues, especially from excessive sweets
- Cause unequal or unsafe situations within the community

Our goal is to protect children's dignity, education, and future.

A better way to help: Support organised community projects

We work with trusted local initiatives that focus on **education, health, and community development**. By donating through these projects, your contribution is:

- Transparent and well-managed
- Focused on long-term impact
- Aligned with real community needs

Example: Supporting a child's education

- **Annual contribution:** €200
- **Duration:** Continued support until the student completes their school program
- **Impact:** School fees, learning materials, and access to education that can change a child's life

How you can donate

- **By contacting us:** daniela@riseint.org
- **Directly at the Resort** — our team will be happy to assist you

*We are always happy to share more information about the projects we support.
Your thoughtful generosity helps build a stronger, more sustainable future for our community.
Thank you for choosing to give in a way that truly makes a difference.*
